Re: May 15, 2013 Open Records Request, SR# 13-00250578

Dear Mr. Barker:

This letter responds to your open records request received by the City of Dallas ("City") on May 15, 2013, for certain information pertaining to area in the vicinity of the proposed Texas Horse Park ("THP"). We are seeking clarification of your request to ensure that your request is properly processed in a timely manner.

- (1) Please clarify your intent regarding your request for "any records relating to removal of foreign materials, contaminated soil, [and] contamination of groundwater". Although removal and remediation has not yet taken place on City property in the vicinity of the THP, extensive details regarding the environmental condition of the vicinity of the THP are included in reports submitted to the Texas Commission on Environmental Quality (TCEQ) Voluntary Cleanup Program (VCP) for VCP No. 2210. These reports are available for your inspection. Are you seeking any additional records? If so, please specify.
- (2) Please specify what is meant by "any other records on how the City of Dallas or contractors hired by the City of Dallas intend to remediate or otherwise remove any possible soil or water contamination from the area". City staff makes recommendations, but only Council or City Management makes the determination regarding how the City will address soil or other impacts, and we are not at that point yet. However, a proposed course of action is presented in the Response Action Plan for VCP No. 2210 submitted to TCEQ. As I stated above, these reports are available for your inspection. Are you seeking any additional records? If so, please specify.

Your request for information will be withdrawn if you do not respond in writing to this request for clarification within 61 days.
